- *Report on the results of risk management implementation in the last 6 months of 2024:*
- + In the last 06 months of 2024, SeABank continued to review and update Documents, particularly those under the authority of the BOD, to ensure alignment with the Law on Credit Institutions and relevant Circulars. These updates, amendments, and supplements

not only ensured compliance with legal and State Bank of Vietnam (“SBV”) regulations but also provided timely support for business growth activities.

- + Operate and upgrade systems, including: the credit rating models for individual and corporate customers; development of a new early warning EWS system for individual customers; development of a new A-score credit rating system for individual customers; and implementation of an automated debt classification system and related-party identification in accordance with the 2024 Law on Credit Institutions.
- + Continue to strengthen the inspection and supervision of collateral valuation quality, issue risk warnings, and provide updates on real estate market developments to business units. At the same time, continue to enhance internal regulations, conduct training programs, and provide guidance on risk identification to improve the overall quality of the valuation process.
- + Implement operational risk management programs; develop and operate a set of criteria for identifying suspicious payment accounts showing signs of fraud, forgery, or legal violations.
- + Complete the analysis of customer deposit behavior models to forecast cash flows in support of liquidity and interest rate risk management for the banking book.
- + Manage the Capital Adequacy Ratio (CAR) and monitor capital sufficiency to ensure compliance with the regulations of the SBV and adherence to the SeABank’s Risk Appetite.
- + Completed the revision of ESMS, and developed the appendix ESMS to specifically meet the requirements related to Green bond, Blue bond of AIIB and IFC.
- *Approved the content and activity plan of the Risk Management Committee (RMC) for the first six months of 2025.*
- + Develop, update, amend, and supplement internal regulations in line with the Development Orientation of SeABank and in compliance with applicable laws and regulations issued by the State Bank of Vietnam (SBV).
- + Enhance the capacity for evaluating and appraising current credit products, with a special focus on cashless payment solutions, aiming to streamline loan procedures in alignment with the Bank’s digital transformation strategy while ensuring the security and safety of payment operations.
- + Strengthen credit monitoring across customer segments, regions, and business units; conduct credit risk assessments by product and policy; and supervise compliance with the targets set out in the 2025 Credit Orientation.
- + Complete the implementation and put into operation the ongoing credit risk projects, including: the automated debt classification system; the CIC reporting system in accordance with Circular No. 15; the early delinquency warning system for individual customers; the A-score credit rating model for individual customers; and the web-based information query and CIC retrieval system.
- + Upgrade and enhance the Risk Datamart database to support automated supervision and reporting tasks.
- + Strengthen the inspection and monitoring of collateral assets to provide timely risk warnings; continue refining and streamlining collateral policy frameworks to meet business requirements.
- + Focus on proactively reviewing, detecting, and issuing risk alerts related to the Bank’s operational activities, with special attention to card risk management in alignment with the Bank’s card development strategy. Finalize and officially operate the integrated risk management and compliance GRC system.

- + Continue to closely monitor market developments to ensure compliance with market risk, interest rate risk in the banking book, and liquidity risk management. Simultaneously, implement behavioral modeling into systems and provide training for staff at the Center and other relevant units.
  - + Manage the Capital Adequacy Ratio (CAR) and monitor capital sufficiency to ensure compliance with SBV regulations and adherence to SeABank's Risk Appetite.
  - + Continue finalizing Appendix ESMS to specifically meet the Minimum Baseline Criteria on Green bond, Blue bond of AIIB and IFC. Develop a green credit evaluation process aligned with the Green bond and Blue bond frameworks.
